

## Cold Weather Policy

---

For the safety of users and staff, sledding hills and ice-rinks will be closed when the wind-chill temperature drops to -20°F. The policy has been set for use of sledding hills and ice rinks during cold weather to conserve energy and also for the safety of the users and staff. The rinks will be closed when the windchill temperature drops to -20°F according to the weather report on KARE 11 one hour before the scheduled opening. On weekends, the rinks will be open when the weather warms up. Call the weather and information hotline at 952-949-8449; press 1 for updated rink closing information.
